ABOUT R.E. BATGER

Established in 1953, RE Batger is Australia's largest privately owned educational furniture manufacturer and supplier. Our furniture is ideal for any learning environment that requires endurance, space-conscious design and style.

We believe that Australian-made quality and world-class standards should be affordable and our competitive prices reflect a commitment to making furniture of this standard available to every modern institution. We manufacture furniture in Sydney and are able to custom build to specification. We have a long established partnership with Laminex Formica and offer its full range of colours and finishes.

Along with a commitment to technology, we have a strong commitment to the environment and creating a sustainable future for generations to come. We have worked hard to achieve our environmental and quality control certification (AS/NZS ISO 14001:2004 and AS/NZS ISO 9001:2008) from NCS International. These two certifications signify the company's vision to seek out and constantly improve manufacturing to ensure environmental sustainability and harm minimization.

We are committed to the Australian education community, giving to charities that range from Indigenous education sponsorships to local fund-raising organizations.

We are here to help and are keen for your business. Our full product range is available online at www.rebatger.com.au. For all your furniture needs please call us on 1300 553 240 .
